GALLERY™ Digital Signage

Digital Excellence on Display

Gallery™ Digital Signage is the ideal customized communication product, to inform and communicate with your customers, employees and visitors.

Who Needs Digital Signage?

Gallery™ Digital Signage Solutions provides a unique combination of multimedia technology that will inform and effectively engage your audience. The Gallery™ Digital Signage software offering varies from single use to multiple use options showcased through a wide range of kiosks and displays. Gallery™ Digital Signage is flexible, scalable, affordable and meets the needs of multiple applications. The power of Gallery™ comes from the combination of entertainment, electronics and multimedia communication.

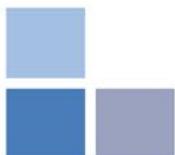

Our tailored systems and displays fit diverse applications and markets including:

- ▶ Retail
- ▶ Hospitality
- ▶ Healthcare
- ▶ Government
- ▶ Health & Fitness
- ▶ Banks
- ▶ Restaurants
- ▶ Corporate
- ▶ Education

Why Gallery™ Digital Signage?

Gallery™ Digital signage is the ideal avenue for digitally showcasing your organization or business, by dynamically displaying your products, programs, community events and internal communication. For some, It can also be a revenue generating opportunity for your operation, as digital signage provides an impactful multimedia option for exhibiting your products as well as offering promotional opportunities to local and national suppliers

Our easy to manage content software options allows for both single use and multiple displays per screen using attractive images for streaming video to graphics and photos. The content management system or software can be controlled by a single authorized user or multiple users with easy to understand commands which makes training simple. Unlike using a DVD or PC for sending content to a display, Gallery™ Digital Signage is designed to operate 24 hours a day, 7 days a week. The Gallery™ Enterprise software allows for scheduling, content management and seamless control of any number of displays. The user determines what to be displayed, and when to be displayed.
